Legend

Zero coupon bond. Interest rate presented is yield to maturity.

Non-income producing security.

@ Security was fair valued at June 30, 2024, by U.S. Global Investors, Inc. (Adviser) (other than international securities fair valued pursuant to systematic fair value models) in accordance with valuation procedures approved by the Board of Trustees. These securities, as a percentage of net assets at June 30, 2024, were 0.00% of Global Luxury Goods Fund, 3.20% of Global Resources Fund, 1.34% of World Precious Minerals Fund and 1.26% of Gold And Precious Metals Fund, respectively. See the Fair Valuation of Securities section of these Notes to Portfolios of Investments for further discussion of fair valued securities. See further information and detail on restricted securities in the Restricted Securities section of these Notes to Portfolios of

Investments.

Illiquid Security.

Δ Pursuant to Rule 144A of the Securities Act of 1933, these securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. The market value of these securities and percentage of net assets as of June 30, 2024 amounted to \$37,279, 0.08%, of Global Luxury Goods Fund, \$1,189,044, 2.85%, of Global Resources Fund, \$801,057, 1.93%, of World Precious Minerals Fund and \$522,120, 0.52%, of Gold And

Precious Metals Fund.

General

The yields reflect the effective yield from the date of purchase.

Variable and Floating Rate Notes have periodic reset features, which effectively shorten the maturity dates and reset the interest rates as tied to various interest-bearing instruments. Rates shown are current rates at June 30, 2024.

Fair Valuation of Securities

For the Funds' policies regarding the valuation of investments and other significant accounting policies, please refer to the Notes to Financial Statements.

Pursuant to Rule 2a-5 under the Investment Company Act, the Trust's Board of Trustees (the "Board") has designated the Adviser, as defined in Note 3 in the Notes to Financial Statements,

as the Funds' valuation designee to perform any fair value determinations for securities and other assets held by the Funds.

The Funds are required to disclose information regarding the fair value measurements of a Fund's assets and liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement requirements established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the portfolios may materially differ from the values received upon actual sale of those investments.

The three levels defined by the fair value hierarchy are as follows:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Prices determined using significant other observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Short-term securities with maturities of sixty days or less are valued at amortized cost, which approximates market value, and are categorized as Level 2 in the hierarchy. Municipal securities, long-term U.S. government obligations and corporate debt securities are valued in accordance with the evaluated price supplied by a pricing service and generally categorized as Level 2 in the hierarchy. Other securities that are categorized as Level 2 in the hierarchy include, but are not limited to, warrants that do not trade on an exchange, securities valued at the mean

between the last reported bid and ask quotation and international equity securities valued by an independent third party in order to adjust for stale pricing.

Level 3 – Prices determined using significant unobservable inputs (including the Fund's own assumptions). For restricted equity securities and private placements where observable inputs are limited, assumptions about market activity and risk are used in determining fair value.

The following table summarizes the valuation of each Fund's securities as of June 30, 2024, using the fair value hierarchy:

| using the fair value hierarch | y: | | | | |

| | Fair Value at 06/30/24 | t | Valuation Technique(s) | Unobservable Input | Range (Weighted Average) |
|--------------------------------|---------------------------|---|---------------------------|-----------------------|-----------------------------|
| Corporate Non-Convertible Bond | | 0 | Market Transaction(1) | Discount | 100% |

⁽¹⁾ Market Transaction refers to most recent known market transaction, including transactions in which the fund participated, as adjusted for any discount or premium as discussed below.

The majority of securities classified as Level 3 are private companies. The initial valuation is usually cost, which is then adjusted as determined by the Valuation Committee for subsequent known market transactions and evaluated for progress against anticipated milestones and current operations. An evaluation that the holding no longer meets expectations could result in the application of discounts and a significantly lower fair valuation. For certain securities, the last known market transaction is increased or decreased by changes in a market index or industry peers as approved by the Valuation Committee.

Affiliated Companies

The Investment Company Act of 1940 defines affiliates as companies in which the Fund owns at least 5% of the outstanding voting securities. The following is a summary of transactions with each affiliated company during the period ended June 30, 2024.

| | Shares of Affiliated Companies | | | | | | |
|----------------------------|--------------------------------|-----------|------------|---------------|--|--|--|
| | December 31, | | | | | | |
| Global Resources Fund | 2023 | Additions | Reductions | June 30, 2024 | | | |

At June 30, 2024, the value of investments in affiliated companies was \$5,105,991, representing 12.27% of net assets, and the total cost was \$5.670.311.

(a) At June 30, 2024, the company was no longer defined as an affiliate, although it was an affiliate company during the period.

Restricted Securities

The following securities are subject to contractual and regulatory restrictions on resale or transfer. These investments may involve a high degree of business and financial risk. Because of the thinly traded markets for these investments, a Fund may be unable to liquidate its securities in a timely manner, especially if there is negative news regarding the specific securities or the markets overall. These securities could decline significantly in value before the Fund could liquidate these securities. The issuer bears the cost of registration, if any, involved in the disposition of these securities.

| Global Luxury Goods Fund | Acquisition Date | Cost per Share/Unit | |
|-------------------------------|---------------------|------------------------|------|
| Infrastructure Ventures, Inc. | 08/06/10-11/22/10 | \$ | 1.00 |

As of June 30, 2024, the total cost of restricted securities was \$426,625, and the total value was \$0, representing 0.00% of net assets.

| Global Resources Fund | Acquisition Date | Cost per Share/Unit | | |
|-------------------------------|---------------------|------------------------|------|--|
| I-Pulse, Inc., 144A | 10/04/07 | \$ | 1.88 | |
| Infrastructure Ventures, Inc. | 08/06/10-11/22/10 | \$ | 1.00 | |

As of June 30, 2024, the total cost of restricted securities was 7,473,544, and the total value was 126,171, representing 0.30% of net assets.

| Gold and Precious Metals Fund | Acquisition Date | Cost per Share/Unit | | |
|-------------------------------|---------------------|------------------------|------|--|
| Petropavlovsk PLC | 09/15/21-10/07/21 | \$ | 0.28 | |

As of June 30, 2024, the total cost of restricted securities was \$1,362,590, and the total value was \$0, representing 0.00% of net assets.

Note 1: Organization and Significant Accounting Policies

U.S. Global Investors Funds ("Trust"), consisting of the six separate funds ("Funds") included in this report, is organized as a Delaware statutory trust. Each Fund is an openend management investment company registered under the Investment Company Act of 1940, as amended, and follows the specialized accounting and reporting guidance in FASB Accounting Standards Codification Topic 946. All Funds are diversified with the exception of World Precious Minerals and Gold and Precious Metals. A non-diversified fund may invest a greater percentage of its assets in a smaller number of issuers in comparison to a diversified fund.

On June 14, 2019, the Institutional Shares of the Global Resources Fund and the World Precious Minerals Fund were liquidated and terminated pursuant to a Board approved Plan of Share Class Termination. On the Liquidation Date, each Fund made a liquidating distribution to shareholders of the Institutional Shares equal to each Shareholder's proportionate interest in the Institutional Shares.

Effective July 1, 2020, the Holmes Macro Trends Fund changed its name to Global Luxury Goods Fund. The Fund also changed its investment strategy on July 1, 2020. Prior to that date, the Fund invested in a diversified portfolio of equity and equity-related securities of companies in the S&P Composite 1500 Index, with a focus on companies achieving high return on invested capital metrics and an emphasis on mid-capitalization companies. Different investment strategies may lead to different performance results. The Fund's performance for periods prior to July 1, 2020 reflects the investment strategy in effect prior to that date.

The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements. The policies are in conformity with U.S. generally accepted accounting principles.

A. Security Valuations

The Funds value investments traded on national or international securities exchanges or over-the-counter at the last sales price reported by the security's primary exchange of its market at the time of daily valuation. Options and securities for which no sale was reported are valued at the mean between the last reported bid and asked quotation. Debt securities having 60 days or less to maturity that are expected to be valued at par at maturity may be priced by the amortized cost method if the Adviser determines it would approximate market value. Municipal securities, long-term U.S. government obligations and corporate debt securities are valued by an independent pricing service using an evaluated quote based on such factors as institutional-size trading in similar groups of securities, yield, quality, maturity, coupon rate, type of issue, individual trading characteristics and other market data. For more information please see Notes to Portfolio of Investments.

B. Cash-Concentration in Uninsured Account

For cash management purposes the Funds may concentrate cash with the Funds' custodian. As of June 30, 2024, The U.S. Government Securities Ultra-Short Bond Fund, Near-Term Tax Free Fund, Global Luxury Goods Fund, Global Resources Fund, World Precious Minerals Fund and Gold and Precious Metals Fund held \$6,292,167, \$2,441,012, \$2,025,683, \$2,729,786, \$1,944,824 and \$4,873,771, respectively, as cash reserves at Brown Brothers Harriman & Co. (BBH).

C. Fair Valued Securities

Pursuant to Rule 2a-5 under the Investment Company Act, the Trust's Board has designated the Adviser, as defined in Note 3, as the Funds' valuation designee to perform any fair value determinations for securities and other assets held by the Funds. The Adviser is subject to the oversight of the Board and certain reporting and other requirements intended to provide the Board the information needed to oversee the Adviser's fair value determinations. The Adviser is responsible for determining the fair value of investments for which market quotations are not readily available in accordance with policies and procedures that have been approved by the Board. Under these procedures, the Adviser convenes on a regular and ad hoc basis to review such investments and considers a number of factors, including valuation methodologies and significant unobservable inputs, when arriving at fair value. The Board has approved the Adviser's fair valuation procedures as a part of the Funds' compliance program and will review any changes made to the procedures.

The Adviser provides fair valuation inputs. In determining fair valuations, the Adviser considers a number of factors including nature and duration of any trading restrictions, trading volume, market values of unrestricted shares of the same or similar class, investment management's judgment regarding the market experience of the issuer, financial status and other operational and market factors affecting the issuer, issuer's management, quality of the underlying property based on review of independent geological studies and other relevant matters. The fair values may differ from what would have been used had a broader market for these securities existed. The Adviser regularly reviews inputs and assumptions and performs transactional back-testing and disposition analysis. The Adviser reports quarterly to the Trust's Board of Trustees.

For securities traded on international exchanges, if events which may materially affect the value of a Fund's securities occur after the close of the primary exchange and before a Fund's net asset value is next determined, then those securities will be valued at their fair value as determined in good faith in accordance with the policies approved by the Board of Trustees. The Adviser uses a systematic fair value model provided by an independent third party to value international securities primarily traded on an exchange or market outside the Western Hemisphere in order to adjust for stale pricing, which may occur between the close of certain foreign exchanges and the New York Stock Exchange.

Fair valuation is based on subjective factors and, as a result, the fair value price of an investment may differ from the security's market price and may not be the price at which the asset may be sold. Fair valuation could result in a different Net Asset Value ("NAV") than a NAV determined by using market quotes.

D. Security Transactions and Investment Income

Security transactions are accounted for on trade date. Realized gains and losses from security transactions are determined on an identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities where the ex-dividend date may have passed are recorded as soon as the Fund has confirmed the ex-dividend date. Interest income, which may include original issue discount, is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted and amortized, respectively, on a yield-to-worst basis as adjustments to interest income. Investment income is recorded net of foreign taxes withheld where recovery of such taxes is uncertain. Investment income and realized and unrealized gains (losses) are allocated to each Fund's share class based on their respective net assets.

The Funds may purchase securities on a when-issued or delayed-delivery basis and segregate collateral on their books with a value at least equal to the amount of the commitment. Losses may arise due to the changes in the value of the underlying securities or if the counterparty does not perform under the contract.

E. Foreign Currency Transactions

Some Funds may invest in securities of foreign issuers. The accounting records of these Funds are maintained in U.S. dollars. At each net asset value determination date, the value of assets and liabilities denominated in foreign currencies are translated into U.S. dollars using the current prevailing exchange rate. Security transactions, income and expenses are converted at the prevailing rate of exchange on the respective dates of the transactions. The effect of changes in foreign exchange rates on foreign denominated securities is included with the net realized and unrealized gain or loss on securities. Other foreign currency gains or losses are reported separately.

F. Federal Income Taxes

The Funds intend to continue to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of their taxable income to shareholders. Accordingly, no provision for federal income taxes is required. Each Fund may be subject to foreign taxes on income and gains on investments, which are accrued based on the Fund's understanding of the tax rules and regulations in the foreign markets.

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years or expected to be taken in 2023 tax returns. The Funds file U.S. federal and excise tax returns as required. The Funds' 2020, 2021, 2022 and 2023 (when filed) tax returns are open to examination by the federal and applicable state tax authorities. The Funds have no examinations in progress.

G. Dividends and Distributions to Shareholders

The Funds record dividends and distributions to shareholders on the ex-dividend date. Distributions are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States. Accordingly, periodic reclassifications related to permanent book and tax basis differences are made within the Funds' capital accounts to reflect income and gains available for distribution under income tax regulations.

The Funds, except as noted below, generally pay income dividends and distribute capital gains, if any, annually. The U.S. Government Securities Ultra-Short Bond Fund and the Near-Term Tax Free Fund pay dividends monthly. A Fund may elect to designate a portion of the earnings and profits distributed to shareholders on the redemption of Fund shares during the year as distributions for federal income tax purposes.

H. Expenses

Fund specific expenses are allocated to that Fund. Expenses that are not fund specific are allocated among Funds. Except for the U.S. Government Securities Ultra-Short Bond Fund, expense offset arrangements have been made with the Funds' custodian so the custodian fees may be paid indirectly by credits earned on the Funds' cash balances. Such deposit

arrangements are an alternative to overnight investments. Custodian fees are presented in the Statements of Operations gross of such credits, and the credits are presented as offsets to expenses. For the U.S. Government Securities Ultra-Short Bond Fund, credits earned on its cash balance are included in interest and other income.

I. Use of Estimates in Financial Statement Preparation

The Funds are investment companies accounted for in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Therefore they follow the accounting and reporting guidelines for investment companies. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Note 2: Financial Derivative Instruments

A. Options Contracts

Global Luxury Goods Fund, Gold and Precious Metals Fund, Global Resources Fund and World Precious Minerals Fund (the "Equity Funds") may purchase or write (sell) options on securities to manage their exposure to stock or commodity markets as well as fluctuations in interest and currency conversion rates. The use of options carries the risks of a change in value of the underlying instruments, an illiquid secondary market, or failure of the counterparty to perform its obligations.

A put option gives the purchaser of the option, upon payment of a premium, the right to sell, and the issuer of the option the obligation to buy, the underlying security, commodity, index, currency or other instrument at the exercise price. A call option, upon payment of a premium, gives the purchaser of the option the right to buy, and the issuer the obligation to sell, the underlying instrument at the exercise price.

Purchasing a put option tends to decrease a Fund's exposure to the underlying instrument, whereas purchasing a call option tends to increase a Fund's exposure to the underlying instrument. A Fund pays a premium which is included in the Statement of Assets and Liabilities as an investment and subsequently marked to market to reflect the current value of the option. Premiums paid to purchase options which expire are treated as realized losses. Premiums paid to purchase options which are exercised or closed are added to the cost of securities acquired or the proceeds from securities sold. The risk associated with purchasing put and call options is limited to the premium paid.

The Funds will realize a loss equal to all or a part of the premium paid for an option if the price of the underlying security or other instrument decreases or does not increase by more than the premium (in the case of a call option), or if the price of the underlying security or other instrument increases or does not decrease by more than the premium (in the case of a put option).

Writing (selling) a put option tends to increase a Fund's exposure to the underlying instrument, whereas writing a call option tends to decrease a Fund's exposure to the underlying instrument. The premium received is recorded as a liability in the Statement of Assets and Liabilities and subsequently marked to market to reflect the current value of the option written. Premiums received from writing options which expire are treated as realized gains. Premiums received from options which are exercised or closed are added to

the proceeds or offset against amounts paid on the underlying transaction to determine the realized gain or loss. Written options include a risk of loss in excess of the option premium. A Fund as a writer of an option has no control over whether the underlying instrument may be sold (call) or purchased (put) and thus bears the market risk of an unfavorable change in the price of the instrument underlying the written option. There is also the risk a Fund may not be able to enter into a closing transaction because of an illiquid market.

A Fund's ability to close out its position as a purchaser or seller of a put or call option is dependent, in part, upon the liquidity of the market for that particular option. There can be no guarantee that a Fund will be able to close out an option position when desired. An inability to close out its options positions may reduce a Fund's anticipated profits or increase its losses.

As of June 30, 2024, there were no securities held in escrow by the custodian as cover for call options written.

B. Forward Foreign Currency Contracts

The Funds enter into forward foreign currency contracts to lock in the U.S. dollar cost of purchase and sale transactions or to hedge the portfolio against currency fluctuations. A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated rate. These contracts are valued daily, and the Fund's net equity therein, representing unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date, is included in the Statement of Assets and Liabilities. Realized and unrealized gains and losses are included in the Statement of Operations. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of the contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar.

Open forward foreign currency contracts as of June 30, 2024, were as follows:

| | | | | | Settlement | | | | | |
|--------------|-----------------------|--------------|-----|-----------|---------------|--------------|----------|----------|--|--|
| | | | Cur | rency to | Settlement Va | alue at June | e Net Un | realized | | |

| Net realized gain (loss) from foreign currency transactions Foreign exchange contracts — Currency contract risk | | (42,683) | - | | |
| | | (156,355) | (126,006) | | (82,557) |
| Change in unrealized appreciation (depreciation) on derivatives recognized in income Net change in unrealized appreciation (depreciation) of | | | | | |
| investments Purchased options – Equity risk Net change in unrealized gain (loss) from foreign currency transactions | | 16,221 | (54,746) | | (48,701) |
| Foreign exchange contracts – Currency contract risk | | 128,336 | _ | | |
| Total | \$ | 144,557 (11,798) | \$ (54,746) (180,752) | \$ | (48,701) (131,258) |

| Location | Gold and Precious Metals Fund | | |
|--|-------------------------------------|-----------|--|
| Realized gain (loss) on derivatives recognized in income | | | |
| Realized gain (loss) from securities Purchased options – Equity risk | \$ | (194,180) | |
| Net realized gain (loss) from foreign currency transactions Foreign exchange contracts — Currency contract risk | | 20 | |
| Change in unrealized appreciation (depreciation) on derivatives recognized in income | | (194,160) | |
| Net change in unrealized appreciation (depreciation) of investments | | | |
| Purchased options — Equity risk | | (103,788) | |
| | _ | (103,788) | |
| Total | \$ | (297,948) | |

The total value of transactions in purchased options and forward currency contracts outstanding during the period ended June 30, 2024, were approximately as follows:

| | | Forward Currency |
|-------------------------------|--------------------------|------------------|
| Fund | Purchased Options | Contracts |
| Global Luxury Goods Fund | \$ 56,851 | \$ 13,126,449 |
| Global Resources Fund | 208,997 | _ |
| World Precious Minerals Fund | 101,044 | _ |
| Gold and Precious Metals Fund | 244,602 | 8,480 |

Asset (Liability) amounts shown in the table below represent amounts for derivative related instruments at June 30, 2024. These amounts may be collateralized by cash or financial instruments.

| | Gross Asset (Liability) as Presented in the Statement of Assets and Liabilities | | Financial Instruments (Received) Pledged* | | Cash Colla (Receiv Pledge | ed) | Net Amount | |
|--|---|-------|--|---|---------------------------------|-----|------------|-------|
| Global Luxury Goods | | | | | | | | |
| Assets: Over-the-counter derivatives | \$ | 1,650 | \$ | _ | \$ | _ | \$ | 1,650 |

- * The actual financial instruments and cash collateral (received) pledged may be in excess of the amounts shown in the table. The table only reflects collateral amounts up to the amount of the financial instrument disclosed on the Statement of Assets and Liabilities.
- ** Over-the-counter derivatives may consist of forward currency contracts. The amounts disclosed above represent the exposure to one or more counterparties. For further detail on individual derivative contracts, see the Portfolios of Investments.

Note 3: Investment Advisory and Other Agreements

U.S. Global Investors, Inc. (the "Adviser") is the investment adviser to the Funds. Pursuant to an investment advisory agreement with the Trust in effect through October 1, 2024, furnishes management and investment advisory services and, subject to the supervision of the Trustees, directs the investments of each Fund according to each Fund's investment objectives, policies and limitations.

For the services of the Adviser, each Fund pays a base management or advisory fee based upon its net assets. Fees are accrued daily and paid monthly. The contractual management fee for each Fund is:

| | Average Percentage of |
|---|--|
| Fund | Average Daily Net Assets |
| U.S. Government Securities Ultra-Short Bond | .50% of the first \$250,000,000 and .375% of the excess |
| Near-Term Tax Free | .50% |
| Global Luxury Goods | 1.00% |
| Global Resources | .95% of the first \$500,000,000; .90% of \$500,000,001 to |
| | \$1,000,000,000 and .85% of the excess |
| World Precious Minerals | 1.00% of the first \$500,000,000; .95% of \$500,000,001 to |
| | \$1,000,000,000 and .90% of the excess |

Note 3: Investment Advisory and Other Agreements

Fund

Gold and Precious Metals .90% of the first \$500,000,000 and .85% of the excess

The advisory agreement also provides that the base advisory fee of the Equity Funds will be adjusted upwards or downwards by 0.25 percent if there is a performance difference of 5 percent or more between a Fund's performance and that of its designated benchmark index over the prior 12 months. The performance adjustment is calculated separately for each share class. The benchmarks are as follows:

| Fund | Benchmark Index |
|--------------------------|---|
| Global Luxury Goods | S&P Composite 1500 TR Index |
| Global Resources | S&P Global Natural Resources Index (Net Total Return) |
| World Precious Minerals | NYSE Arca Gold Miners Index |
| Gold and Precious Metals | FTSE Gold Mines Index |

No performance adjustment is applied unless the difference between the class's investment performance and the benchmark is 5 percent or greater (positive or negative) during the applicable performance measurement period. The performance fee adjustment is calculated monthly in arrears and is accrued ratably during the month. The management fee, net of any performance fee adjustment, is paid monthly in arrears.

At a special meeting of shareholders of the World Precious Minerals Fund held on March 8, 2024, the shareholders of the World Precious Minerals Fund approved the elimination of the performance adjustment, effective April 1, 2024. At a special meeting of the shareholders of the Global Luxury Goods Fund and Gold and Precious Metals Fund held on March 28, 2024, the shareholders of the Global Luxury Goods Fund and Gold and Precious Metals Fund each approved the elimination of the performance adjustment, effective April 1, 2024. At a special meeting of shareholders of the Global Resources Fund held on May 24, 2024, the shareholders of the Global Resources Fund approved the elimination of the performance adjustment, effective June 1, 2024.

The Adviser has agreed to phase in the removal of the performance adjustment such that, until 12 months after the elimination of the performance adjustment was approved (such phase in currently expected until March 31, 2025 with respect to World Precious Minerals Fund, Global Luxury Goods Fund, and Gold and Precious Metals Fund, and until May 31, 2025 with respect to Global Resources Fund), each Fund will pay advisory fees equal to the lesser of the base rate fee or the fee as determined with the performance adjustment. In particular, during this phase in period, the advisory fee rate may be adjusted downward if a Fund's cumulative performance falls below the performance of its designated benchmark index by 5% or more but would not be correspondingly adjusted upward.

The amounts shown as Management fee on the Statements of Operations reflects the base fee plus/minus any performance adjustment. During the period ended June 30, 2024, the Funds recorded performance adjustments as follows:

| Fund | Investor Class Performance Fee Adjustment |
|-------------------------|---|
| Global Luxury Goods | \$ (58,337) |
| Global Resources | (58,268) |
| World Precious Minerals | (54,678) |

Note 3: Investment Advisory and Other Agreements

Atlantic Fund Administration, LLC, a wholly owned subsidiary of Apex US Holdings, LLC (d/b/a Apex Fund Services) ("Apex") and the Adviser act as co-administrators to the Trust. Apex provides a Principal Executive Officer, a Principal Financial Officer, a Chief Compliance Officer and a Anti-Money Laundering Officer to each Fund, as well as certain additional compliance and administrative support functions. Apex also provides fund accounting services to each Fund. The fees related to these services are included in Administration Fees within the Statement of Operations. Apex also provides certain shareholder report production and EDGAR conversion and filing services. Pursuant to an Apex services agreement, each Fund pays Apex customary fees for its services.

The U.S. Government Securities Ultra-Short Bond, Near-Term Tax Free, Global Luxury Goods, Global Resources, World Precious Minerals and Gold and Precious Metals Funds compensate the Adviser at an annual rate of 0.05% of the average daily net assets of each Fund for administrative services provided.

The Equity Funds in the Trust have adopted a distribution plan pursuant to Rule 12b-1 of the Investment Company Act of 1940 in which the Distributor is paid a fee at an annual rate of 0.25% of the average daily net assets of the Fund for sales and promotional services related to the distribution of shares.

The Adviser has contractually limited the total operating expenses of the Global Luxury Goods Fund, Gold and Precious Metals Fund, World Precious Minerals Fund, and Global Resources at 1.75% on an annualized basis through April 30, 2025. The Adviser has also contractually limited the total operating expenses of the Near-Term Tax Free Fund at 0.45% on an annual basis through April 30, 2025.

The Adviser has voluntarily agreed to reimburse the U.S. Government Securities Ultra-Short Bond Fund so that total operating expenses will not exceed 0.45% of average net assets through April 30, 2025. The expense limitation will continue on a voluntary basis at the Adviser's discretion. The Adviser may temporarily agree to additional reimbursements or limitations.

Apex is the transfer agent for the Funds. Each Fund's share class pays an annual fee based on the number of shareholder accounts, certain base fees and transaction- and activity-based fees for transfer agency services. Certain account fees are paid directly by shareholders to the transfer agent, which, in turn, reduces its charge to the Funds.

Brown Brothers Harriman & Co. (BBH) serves as the custodian.

Foreside Fund Services, LLC (the "Distributor"), a wholly owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group), acts as the agent of the Trust in connection with the continuous offering of shares of the Funds. The Distributor continually distributes shares of the Funds on a best efforts basis.

Note 4: Investments

Cost of purchases and proceeds from sales of long-term securities for the period ended June 30, 2024, are summarized as follows:

| Fund | Purc | hases | Sal | Sales | | | |
|---|------|------------|-----|------------|--|--|--|
| U.S. Government Securities Ultra-Short Bond | \$ | 6,429,005 | \$ | 11,410,216 | | | |
| Near-Term Tax Free | | 4,456,019 | | 3,750,000 | | | |
| Global Luxury Goods | | 37,452,444 | | 35,805,165 | | | |
| Global Resources | | 17,929,727 | | 22,736,814 | | | |
| World Precious Minerals | | 5,422,112 | | 9,181,019 | | | |
| Gold and Precious Metals | | 26,434,800 | | 39,329,067 | | | |

Note 5: Tax Information

The following table presents the income tax basis of securities owned at June 30, 2024, and the tax basis components of net unrealized appreciation (depreciation):

| Fund | nd Aggregate Tax Cost | | | | ı | Gross Unrealized Depreciation | Net Unrealized Appreciation (Depreciation) | | | |
|----------------------------|-----------------------|------------|----|------------|----|-------------------------------------|--|--------------|--|--|
| U.S. Government Securities | | | | | | | | | | |
| Ultra-Short Bond | \$ | 22,674,080 | \$ | 966 | \$ | (42,815) | \$ | (41,849) | | |
| Near-Term Tax Free | | 22,465,097 | | 2,210 | | (204,057) | | (201,847) | | |
| Global Luxury Goods | | 43,294,885 | | 6,193,016 | | (3,247,802) | | 2,945,214 | | |
| Global Resources | | 78,620,169 | | 12,070,576 | | (52,815,175) | | (40,744,599) | | |
| World Precious Minerals | | 70,793,564 | | 10,705,738 | | (41,395,713) | | (30,689,975) | | |
| Gold and Precious Metals | | 76,738,458 | | 30,663,536 | | (11,449,841) | | 19,213,695 | | |

As of December 31, 2023, the components of distributable earnings on a tax basis were as follows:

| Fund | Undistributed Tax-Exempt Income | Undistributed Ordinary Income | Undistributed Long-Term Capital Gains | Capital and Other Losses |
|--|---------------------------------------|-------------------------------------|---|-----------------------------|
| U.S. Government Securities Ultra-Short | | | • | |
| Bond | \$ - | -\$ - | \$ -5 | (790,545) |
| Near-Term Tax Free | - | | _ | (2,779,541) |
| Global Luxury Goods | - | - 748,296 | 1,276,472 | (1,316,649) |
| Global Resources | - | - 1,367,492 | _ | (241,843,934) |
| World Precious Minerals | - | | _ | (351,715,654) |
| Gold and Precious Metals | - | - 107,335 | _ | (64,254,824) |

| | Net Unrealized Appreciation | Other Temporary | |
|---|-----------------------------|--------------------|---------------|
| Fund (continued) | (Depreciation) | Differences | Total |
| U.S. Government Securities Ultra-Short Bond | \$ 87,510 \$ | -\$ | (703,035) |
| Near-Term Tax Free | (86,813) | _ | (2,866,354) |
| Global Luxury Goods | 1,441,562 | 2,100 | 2,151,781 |
| Global Resources | (49,673,569) | 45,463 | (290,104,548) |
| World Precious Minerals | (49,806,424) | 1,343 | (401,520,735) |
| Gold and Precious Metals | 7,182,456 | (4,510) | (56,969,543) |

The differences between book-basis and tax-basis unrealized appreciation (depreciation) for Global Luxury Goods, Global Resources, World Precious Minerals and Gold and Precious Metals Funds are attributable primarily to the tax deferral of losses on wash sales, investment in passive foreign investment companies (PFIC), section 988 forward currency contracts, equity return of capital, investments in grantor trusts and investments in partnerships.

Reclassifications are made to the Funds' capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations. For the year ended December 31, 2023, the Funds recorded the following reclassifications to increase (decrease) the accounts listed below:

| | D | istributable | | |
|---|----|--------------|----|---------------|
| Fund | | Earnings | Pa | id in Capital |
| U.S. Government Securities Ultra-Short Bond | \$ | 708 | \$ | (708) |
| Near-Term Tax Free | | 574 | | (574) |
| Global Luxury Goods | | _ | | _ |
| Global Resources | | 78,336 | | (78,336) |
| World Precious Minerals | | 574,322 | | (574,322) |
| Gold and Precious Metals | | (684) | | 684 |

The tax character of distributions paid during the fiscal year ended December 31, 2023, were as follows:

| Fund | 1 | ax-Exempt Income | Ordinary Income | Long-Term apital Gains | ; | Return of Capital | Total |
|----------------------------|----|---------------------|--------------------|---------------------------|----|----------------------|-----------------|
| U.S. Government Securities | | | | | | | |
| Ultra-Short Bond | \$ | _ | \$ 1,170,048 | \$ - | \$ | _ | \$ 1,170,048 |
| Near-Term Tax Free | | 550,450 | 146,197 | _ | | _ | 696,647 |
| Global Luxury Goods | | _ | 397,483 | 854,127 | | _ | 1,251,610 |
| Global Resources | | _ | _ | _ | | _ | _ |
| World Precious Minerals | | _ | _ | _ | | _ | _ |
| Gold and Precious Metals | | _ | _ | _ | | _ | _ |

The tax character of distributions paid during the fiscal year ended December 31, 2022, were as follows:

| Fund | Ta | ax-Exempt Income | Ordinary Long-Term Income Capital Gains | | | Return of Capital | Total | |
|----------------------------|----|---------------------|--|----|---------|----------------------|-------|---------------|
| U.S. Government Securities | | | | | | | | |
| Ultra-Short Bond | \$ | _ | \$ 289,109 | \$ | 7,427 | \$ | - : | \$ 296,536 |
| Near-Term Tax Free | | 318,228 | 39,685 | | - | | _ | 357,913 |
| Global Luxury Goods | | _ | 1,914,604 | | 539,320 | | _ | 2,453,924 |
| Global Resources | | _ | 7,566,498 | | - | | _ | 7,566,498 |
| World Precious Minerals | | - | _ | | _ | | _ | - |
| Gold and Precious Metals | | _ | _ | | - | | _ | _ |

Capital loss carryforwards may be used to offset current or future taxable capital gains. The loss carryforwards for each Fund, as of December 31, 2023, are as follows:

| | _ | | | |
|---|---------------|---------------|----|-------------|
| Fund | Short-Term | Long-Term | | Total |
| U.S. Government Securities Ultra-Short Bond | \$ 404,308 | \$ 386,237 | \$ | 790,545 |
| Near-Term Tax Free | 1,040,620 | 1,738,921 | | 2,779,541 |
| Global Luxury Goods | 1,316,649 | _ | | 1,316,649 |
| Global Resources | 166,015,162 | 75,828,772 | | 241,843,934 |
| World Precious Minerals | 88,162,186 | 263,553,468 | | 351,715,654 |
| Gold and Precious Metals | 44,928,092 | 19,326,732 | | 64,254,824 |

The Global Luxury Goods Fund has a Section 382 loss limitation. The remaining loss limit at December 31, 2023 is \$1,316,649 and the yearly amount of loss that can be drawn down or utilized from this amount is \$117,889.

During the year ended December 31, 2023, the following Funds utilized capital loss carryforwards to offset capital gains amounting to:

| Fund | |
|---------------------|-----------------|
| Global Luxury Goods | \$ 4,155,414 |

Note 6: Risks of Concentrations and Foreign Investments

The Near-Term Tax Free Fund may be exposed to risks related to concentration of investments in a particular state or geographic area. These investments present risks resulting from changes in economic conditions of the region or the issuer.

The Global Resources Fund concentrates its investments in the natural resources industries and may be subject to greater risks and fluctuations than a portfolio representing a broader range of industries.

The World Precious Minerals and Gold and Precious Metals Funds concentrate their investments in gold and other precious metals and minerals and, therefore, may be subject to greater risks and market fluctuations than a portfolio representing a broader range of industries. The funds invest in securities that typically respond to changes in the price of gold and other precious metals and minerals, which can be influenced by a variety of global economic, financial and political factors; increased environmental and labor costs in mining; and changes in laws relating to mining or gold production or sales. Fluctuations in the prices of gold and other precious metals and minerals will affect the market values of the securities held by these funds.

Note 7: Credit Arrangements

Each of the Funds has an uncommitted credit facility with BBH, which will remain in effect through at least April 19, 2025. The continuance of the credit facility with BBH is subject to annual renewal by the Board. On April 24, 2019, the Adviser opted to convert the committed line of credit into an uncommitted line of credit. As a result, the Adviser is no longer obligated to pay commitment fees to BBH. Borrowings of each Fund are collateralized by any or all of the securities held by BBH as the Funds' custodian up to the amount of the borrowing. Interest on borrowings is charged at the current overnight

Federal Funds Rate plus 2 percent. Each Fund has a maximum borrowing limit of 10 percent of qualified assets. The aggregate of borrowings by all Funds under the agreement cannot exceed \$10,000,000 at any one time. There were no borrowings under the credit facility during the period ended June 30, 2024.

Note 8: Commitments and Contingencies

In the normal course of business, each Fund enters into contracts that provide general indemnifications by each Fund to the counterparty to the contract. Each Fund's maximum exposure under these arrangements is dependent on future claims that may be made against each Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote. Each Fund has determined that none of these arrangements requires disclosure on each Fund's balance sheet.

Note 9: Subsequent Events

Subsequent events occurring after the date of this report through the date these financial statements were issued have been evaluated for potential impact, and the Funds have had not such events. Management has evaluated the need for additional disclosures and/or adjustments resulting from subsequent events. Based on this evaluation, no additional disclosures or adjustments were required to the financial statements as of the date the financial statements were issued.

| | | | | | |
| _ | _ | _ | _ | _ | _ |

Ratios to Average Net Assets: Expense offset

⁽a) The per share amount does not round to a full penny.

⁽b) Assumes investment at the net asset value at the beginning of the period, reinvestment of all distributions and a complete redemption of the investment at the net asset value at the end of the period.

⁽c) Expenses waived or reimbursed reflect reductions to total expenses, as discussed in the notes to the financial statements. These amounts would increase the net investment loss ratio or decrease the net investment income ratio, as applicable, and decrease the total returns had such reductions not occurred.

Based on average shares outstanding.

⁽c) The net expense ratios shown above reflect expenses after waivers and reimbursements and include the effect of reductions to total expenses for any expenses offset. Expense offset arrangements reduce total expenses, as discussed in the notes to the financial statements. These amounts would decrease the net investment income (loss) ratio had such reductions not occurred. The effect of expenses offset are as follows:

| | | | Investor C | ass | | |
|----------------------------------|---------------------------------|---------|------------|-------------|---------|---------|
| | Six Months Ended | | Year End | led Decembe | r 31, | |
| | June 30, 2024 (unaudited) | 2023 | 2022 | 2021 | 2020 | 2019 |
| Ratios to Average Net Assets: | | | | | | |
| Expense offset | (0.03)% | (0.04)% | (0.06)% | (e) | (0.01)% | (0.15)% |

⁽d) Excludes option transactions.

⁽a) Assumes investment at the net asset value at the beginning of the period, reinvestment of all distributions and a complete redemption of the investment at the net asset value at the end of the period.

⁽b) Expenses waived or reimbursed reflect reductions to total expenses, as discussed in the notes to the financial statements. These amounts would increase the net investment loss ratio or decrease the net investment income ratio, as applicable, and decrease the total returns had such reductions not occurred.

⁽e) Effect on the expense ratio was not greater than 0.005%.
